## **Tethys Technology's TethysEMS™ Wins the “Best Options Trading Platform” Award at the 2019 Fund Technology and WSL Awards**

**NEW YORK – January 13, 2019 – [Tethys Technology](#)**, an industry leader in financial software development for the capital markets, today announced that its TethysEMS™ product won the 2019 award for “Best Options Trading Platform” from Fund Technology. The award was announced at the annual Fund Technology and WSL Awards Dinner in New York on January 6.

The Fund Technology and WSL Awards recognize and reward providers catering to asset managers and institutional traders who have demonstrated exceptional customer service and innovative product development over the past 12 months.

"Tethys is honored to have its EMS offering recognized as the 'Best Options Trading.' We want to thank the judges for acknowledging our continued commitment in providing the best trading execution available. The hard work of the entire Tethys team is the reason why we are able to provide clients a smart platform enabling them to optimize their trade performance in any market," said Nitin Gambhir, CEO of Tethys Technology.

TethysEMS provides options traders the ability to facilitate strategy simulation, optimize trade execution, trade opportunity detection and risk management. Its rich interface and advanced functionality enables clients to trade global equities, futures, options and foreign exchange and undertake cross-asset algorithmic trading. Additionally, it offers:

- Unparalleled execution tactics, TCA and trade capacity in the global options space;
- US and global Single Stock Options, Index Options and Options on Futures. The quality of its Single Stock algorithms and Futures outright and spread algorithms used for hedging also offer incremental execution performance for options clients.

Tethys' open and scalable platform provides seamless integration or can be customized and configured to trade a large number of orders efficiently and to view portfolio risk in real time. By providing software, algorithms, hosting and market data globally, Tethys offers significant economies to market participants who trade systematically and globally.
